

Extended Use Gloves

EVALUATING THE BENEFITS VS. SINGLE-USE GLOVES

A quick guide illustrating the benefits of extended use gloves, the hazards they can protect against and the industries they're best suited for.

Use this guide to see how Grippaz® Extended Use gloves can make your company more cost-effective, safer and greener.

PROTECTION

DURABILITY

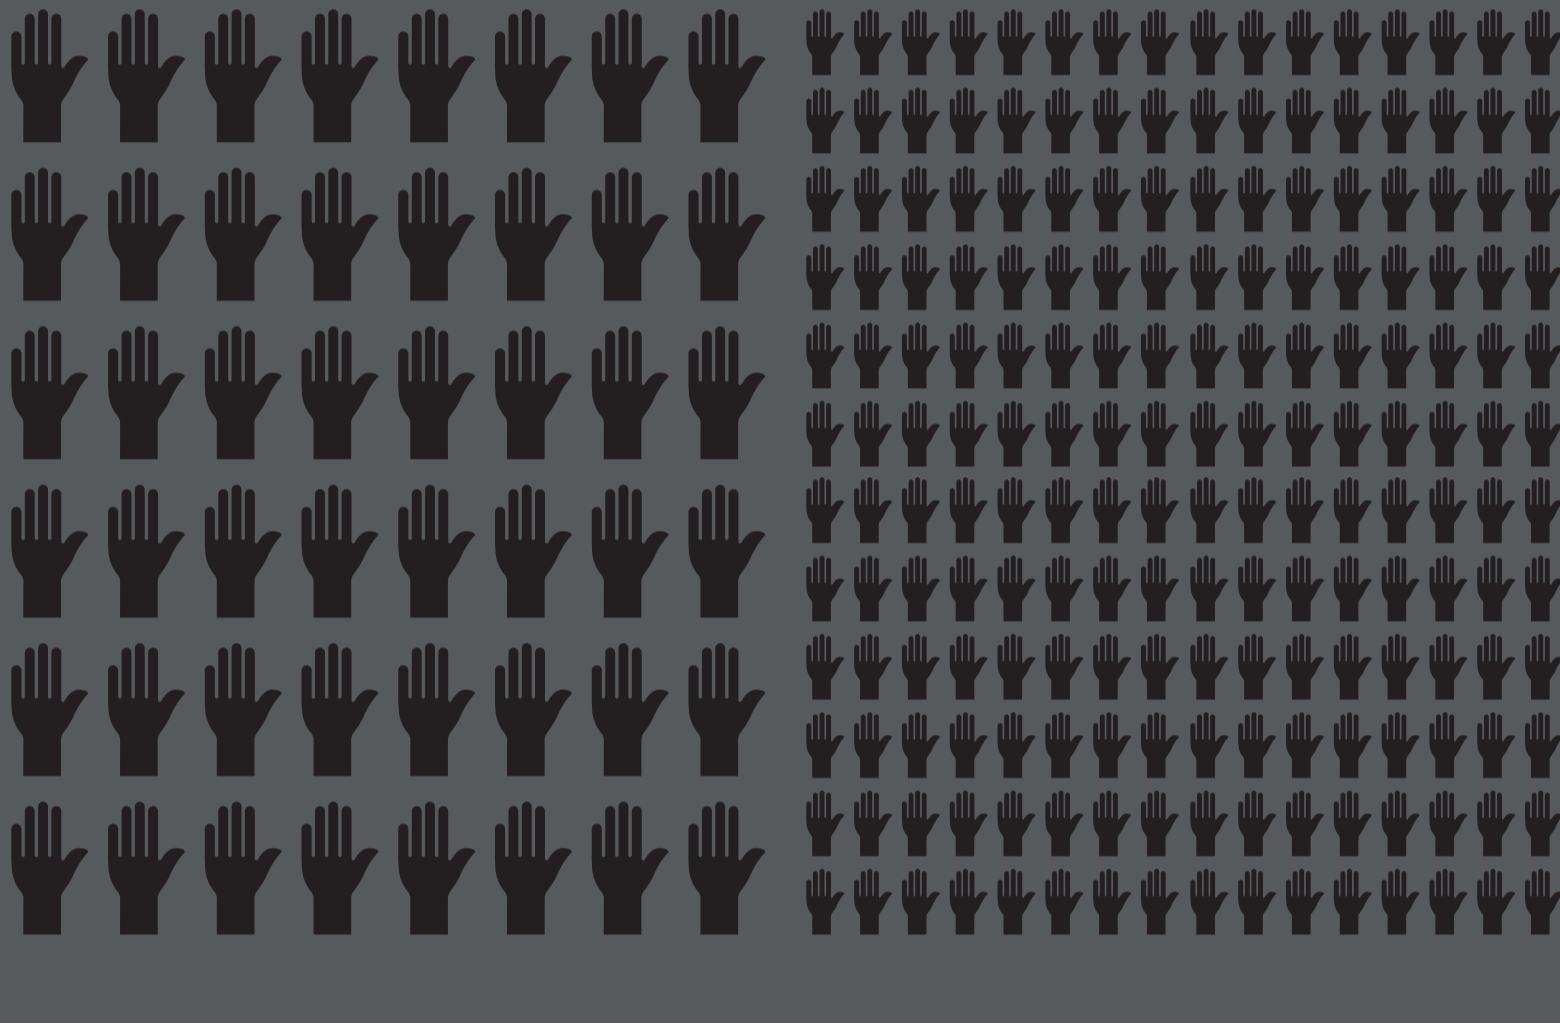

PATENTED GRIP

Grippaz® Extended Use gloves offer the dexterity and comfort of a single-use glove with the durability and protection needed for a wide variety of industrial applications. Patented fish scale pattern on the inside and outside of the glove provides superior grip and toughness. Proprietary nitrile formulation provides a strong, comfortable and more impermeable barrier.

Measuring the TRUE COSTS of Extended Use vs. Single-Use Gloves*

*Based on average usage per person in a manufacturing setting over 6 months.

480 = 1,920

EXTENDED USE GLOVES

SINGLE-USE GLOVES

CAN LEAD TO **BENEFITS** LIKE

48% LOWER COST OF USE
