ISSALINE

PROTECTION HANDS

G-TEK® gloves is the meeting point between mechanical protection and the optimum level of dexterity, fit and form in coated seamless gloves. It offers the most versatile range of coatings, capable of meeting the needs of all types of work.

Grippaz® Extended Use gloves offer the best grip, thanks to patented fish scales that provide effective grip against grease, oil and oil. They last up to 5 times longer than regular disposable gloves.

Ultimate® gloves represent quality, consistency and innovation. Ultimate operates in every manufacturing sector, offering a distinctive mark of excellence for each product we make. In demand by workers around the world.

Hantex® gloves represent quality, comfort and consistency. They offer users in every industry advanced hand protection at a competitive price, without compromising on quality, comfort or reliability.

PROTECTION OF THE BREATHING WAYS

PIP® is synonymous with workplace safety through its PPE and is an industry leader, offering the market comfortable and safe reusable respirators, high-quality disposables, filtering facepieces and masks. All PPE is lightweight, comfortable and designed to ensure maximum safety for workers.

PROTECTION HEARING

PIP® offers a complete line of hearing protection solutions designed to protect workers in noisy work environments, providing all-day comfort and optimal sound attenuation.

PROTECTION EYE PROTECTION

Bouton® designs innovative and fashionable safety eyewear that workers want to wear. Our high-performance glasses offer superior comfort and feature advanced lens technologies that protect and improve productivity.

Scope® our new brand represents cutting-edge products and technologies to protect workers across the industrial, construction, chemical and energy sectors. Our mission: to improve worker performance and well-being.

PRESENTATION OF BRANDS BY CATEGORY

CLOTHING WORKWEAR

ISSALINE® as always been recognized as a specialist brand in workwear and, thanks to the brand's long experience and established history in the industry, it can boast numerous advantages, including comfort, safety and reliability. Our garments are designed to meet the needs of various work situations, even the most extreme ones.

The **Bisley®** brand stands for innovation, quality and value, designed with workers in mind, with the goal of providing maximum comfort, durability and safety in the world of work.

Currently not
commercialized in Italy

PROTECTION OF THE HEAD

PIP® offers a full range of head protection, including hard helmets, hard hats and impact helmets, ideal for work at height, firefighting, rescue and forestry operations.

FOOT PROTECTION

PUMA® is a leading sports brand, supported by the world's fastest athletes. ISM (part of the PIP Global Safety family) has worked with PUMA® since 2002 to develop PUMA Safety, a range of high-performance safety footwear. PUMA Safety is one of the fastest growing safety footwear brands in the world.

Currently not
commercialized in Italy

ALBATROS® is a leading German brand of high-performance safety footwear, outdoor clothing and work fashion. All ALBATROS products are designed and developed by our international team in Germany. ALBATROS uses the latest technology in manufacturing and develops unique products.

FOOTGUARD®
Reliable protection, functionality and durability in any work environment. Designed for professionals who want high performance at a great value for money.

FOOT PROTECTION

ISSALINE®, work boots, certified to EN ISO 20347 and EN ISO 20345, offer safety and reliability. With or without a steel toe cap or foil, they are ideal for construction sites, the food industry and leisure. The lugged sole provides excellent grip on slippery surfaces. Made from REACH COMPLIANCE* certified materials, they meet European standards against harmful substances.

A GLOBAL LEADER IN HAND PROTECTION AND PPE

(Personal Protective Equipment)

PIP Global Safety, the undisputed leader in hand protection and Personal Protective Equipment (PPE), has an established presence in North and South America, Europe and Asia. Our mission - "Bringing the Best of the World to You"[®] (The Best of the World to You) - is realized every day through offering the most innovative and reliable safety products. Rely on **PIP Global Safety** to provide maximum protection and safety at work, wherever you are in the world!

8172 TUTELLA T-SHIRT

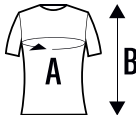

The TUTELLA work T-shirt is made of 100% recycled polyester, an eco-friendly material that provides comfort and durability. Designed to tackle the most demanding work environments, TUTELLA ensures exceptional durability and maintains high performance even in the harshest conditions. A sustainable choice that combines quality and environmental friendliness without compromise.

Bioscience Fresche® microbial treatment is a highly effective solution for long-term control and protection against the growth of bacteria and fungi, which are responsible for persistent odors and stains. Fresche® is invisible once applied and does not alter the color or texture of the garment.

Fresche® is derived from coconut oil, a safe, sustainable and renewable resource.

EN ISO 20471:2013+A1:2016 & EN ISO 13688:2013+A1:2021

High-visibility technical trousers with abrasion-resistant fabric inserts and segmented retro-reflective bands. The Regular Fit fit and stretch fabric offer both comfort and a look in line with the best technical PANTS in the sports sector, enhanced by a comfortable elastic waistband.

There are eight pockets, including a mobile phone pocket with retro-reflective piping insert and a tape measure pocket. Spacious side pocket with flap closure and retro-reflective piping inserts. Back pockets with flap closure and retro-reflective piping inserts. Triple stitching and particularly strong fabric guarantee excellent durability even during the most demanding work. The product is supplied in a single hangable box.

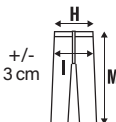

Trousers with T400® technology

T400® technology is an excellent choice for shape-retaining and aesthetically pleasing stretchwear. An elastomultiester stretch fibre, this technology can replace textured yarn in almost all stretch fabrics used for clothing.

Make unique your point of sale:

- **ISSALINE WALL**
- **ISSALINE MODULAR SYSTEM**
- **ISSALINE MODULAR WOOD**

In the competitive world of retail, standing out is crucial to attracting and satisfying customers. With the "Modular ISSALINE" system, customizing your store becomes not only possible, but also a significant competitive advantage. Let me guide you through the endless customization possibilities offered by this innovative system, transforming your store into a unique customer experience.

Modular ISSALINE enhances your customers' experience, optimizes your store's operational efficiency. Its intuitive design and easy assembly saves time and resources during installation and maintenance. Furthermore, its durability and the possibility of modular upgrades ensure that your investment continues to provide value over time.

The new ISSALINE WALL concept is designed by combining a modern linear presentation with our box display system, enriching it with written panels. The result is a comprehensive proposal full of alternatives capable of attracting the end customer and guiding him in the choice of the best PPE.

Choose your module

The modules shown are made by composing the "BACK module" with the addition of some of the accessories shown here.

Elements in wood easily positionable in the point sale

The Issaline Modular Wood system is made using OSB panels, which offer multiple possibilities for customizing display spaces. The Modular Wood concept consists of simple but sturdy elements that can be adapted to different display needs.

This project focuses on the optimisation and reorganisation of space within the shop, allowing the best possible display of products when a display island is required and wall shelving is not possible.

Modular Wood, with an industrial style, is designed to display workwear and PPE.

Follow the instructions and technical diagrams included in the hardware packages to perform assembly. Use the included hardware scrupulously.

900100 MODULAR APPAREL A

Made of OSB wood dim. 110 x h 130 x d 60 cm
supplied with hanging bar.
