# NANO TECHNOLOGY

TAKES CUT RESISTANCE TO A NEW LEVEL

TOUGH. RESISTANT. DURABLE.

**G-Tek**<sup>®</sup>  
Supreme<sup>™</sup>

TOUGH. RESISTANT. DURABLE.

# NEW SCIENCE IN CUT PROTECTION

Advancements in nanofabrication have resulted in the development of Supreme® — based on graphene, it is a new fiber that is proving to be amongst the highest in resistance to cut and tear.

## A BOLD NEW WORLD OF GRAPHENE-BASED FIBERS

Similar to graphite, graphene is remarkably strong for its weight — being 100 times stronger than steel — it outperforms any other material. Structurally it is very different than other fibers in that it is made up of micro-structured graphene sheets well-aligned along the fiber axis.

◀ **15-210**

- Exceptional strength liner
- Excellent dry grip, and good grip in oily conditions
- Black coating on gray liner hides dirt

APPLICATIONS: Electronics, Glass Cutting, Metal Handling, Fastening, General Maintenance

◀ **15-215**

- Extended coating coverage for better protection
- Excellent dry grip, and good grip in oily conditions
- Black coating on gray liner hides dirt

APPLICATIONS: Heavy Duty Industrial, Metal and Castings Handling, Glass and Tile Work, General Maintenance

## FIBERS WITH UNPARALLELED STRENGTH

◀ **15-340**

- Thin coating for precision and dexterity
- Good grip in dry, wet, and slightly oily conditions

APPLICATIONS: Glass Cutting, Metal Handling, Fastening, Construction

◀ **15-440**

- High breathability coating for maximum comfort
- Good grip in dry, wet, and slightly oily conditions
- Black coating on gray liner hides dirt

APPLICATIONS: Glass Cutting, Sheet Metal Handling, Fastening, Sharp Small Parts, Construction
