## PUMA® Safety

Cascades MID S3 CI HI HRO SRC Composite Toe  
Cold Isolation, Heat Isolation, Heat Resistant, Slip  
Resistant, Safety Shoes

- **RUBBER OUTSOLE** - It is obvious that the heavy duty pattern of this hard-wearing, up to 572°F heat resistant HRO rubber outsole has been designed for optimum safety and performance, even on unsecured grounds. A stabilizing shank is integrated in the midsole.
- **PU MIDSOLE** - The direct attached lightweight PU midsole gives underfoot cushioning, shock absorption and insulation from uneven ground.
- **SCUFF CAP** - Over-the-toe extra high scuff cap for wearers who kneel a lot in their job.
- **VOLUME PLUS** - The special shape of the last provides more space to the small toes and the ball of the foot.
- **EVERCUSHION® BA+** - Maximum performance for your work shoes. The contoured evercushion® BA+ footbed follows the shape of the foot and ensures a natural position, pressure relief and muscle stimulation. It is made of two layers of breathable foamed polyurethane in different densities with extra cushioning material in the critical heel and ball area for superior shock absorption. An odor-resistant, sweatwicking and non-slippery fabric covers the whole footbed. Excellent comfort and support to get your job done.
