

PUMA® Safety

Velocity 2.0 Black MID Composite Toe Impact Resistant Toe Cap, Static Dissipating safety, Safety Shoes

- **RUBBER OUTSOLE** - It is obvious that the heavy duty pattern of this hard-wearing, up to 572°F heat resistant HRO rubber outsole has been designed for optimum safety and performance, even on unsecured grounds. A stabilizing shank is integrated in the midsole.
- **FLEX GROOVES** - The diagonal grooves in the sole profile provide a better flexibility and a smoother feel on the ground. Furthermore, they will give you a better grip while walking.
- **TORSION CONTROL ELEMENT** - The TPU torsion control element in the middle of the sole supports the natural flexing action of the foot while walking and provides a better support and stability for the feet.
- **IMPULSE.FOAM®MIDSOLE** - The intelligent midsole made of IMPULSE.FOAM® reacts to every step with an energy impulse. As a result, the IMPULSE.FOAM® not only returns up to 55% of the energy, but also ensures maximum cushioning, excellent stability and long-lasting comfort.
- **EVERCUSHION® BA** - This anatomically designed footbed provides a high level of comfort and moisture control, giving a pleasant foot climate. This footbed, as used in high performance sports shoes, is made from a soft, open-cell, resilient foam that will not compress in wear, which ensures a high level of cushioning, breathability and moisture regulation.

Technical Data

Color	black
Sizes Available	7-14
Packaging	Boxed
Packed	10 Pair/Case
Case Dimensions (cm)	69.50 x 55.00 x 38.00
Case Weight (kg)	22.80
Country of Origin	China
Material	Leather / TPU
Outsole	--
Toe Type	Composite
Tread Pattern	--
Height	--
Construction	Slip Resistant
Certifications	ASTM F2413-11

Performance Data

ASTM F2413 Requirement	--Compression Resistance-- Impact Resistance--Static Dissipative Properties--
------------------------	---

Care Instructions

Hand Wash
