

### Technical Data

Color	Black
Sizes Available	--
Packaging	Boxed
Packed	10/Case
Case Dimensions (cm)	64.50 x 45.00 x 34.00
Case Weight (kg)	16.60
Country of Origin	China
Material	Microfiber
Outsole	--
Toe Type	Composite
Tread Pattern	--
Height	--
Construction	Slip Resistant
Certifications	ASTM F2413-18

### PUMA® Safety

Airtwist Black LOW Composite Toe Impact Resistant Toe Cap, Electrical Hazard protection, Safety Shoes

- **RUBBER OUTSOLE** - The 572°F heat-resistant rubber sole has a special sole profile that drains off liquids and thus optimizes the grip. By increasing the point of rotation, friction and thus fatigue are greatly reduced.
- **EFFECT FOAM®** - Progressive, incomparably comfortable and durable - that's the new EFFECT.FOAM® midsole. Excellent cushioning and energy return support the muscles, guarantee a remarkable joint relief and provide constant pleasant comfort. The special thing about EFFECT.FOAM® is the consistently high level of comfort, because the high-quality material remains powerful, for fatigue-free work and constant high performance.
- **ROTATION POINT** - The special feature of the sole is the integrated rotation point. This point in the area of the inner metatarsus is the most severely strained part while walking. By reinforcing the rotation point, friction and thus fatigue is greatly reduced.
- **EVERCUSHION® BA+** - Maximum performance for your work shoes. The contoured evercushion® BA+ footbed follows the shape of the foot and ensures a natural position, pressure relief and muscle stimulation. It is made of two layers of breathable foamed polyurethane in different densities with extra cushioning material in the critical heel and ball area for superior shock absorption. An odor-resistant, sweat-wicking and non-slippery fabric covers the whole footbed. Excellent comfort and support to get your job done.

### Performance Data

ASTM F2413 Requirement	--Compression Resistance--
	Electrical Hazard Resistance--
	Impact Resistance--

### Care Instructions

Hand Wash
