

Technical Data

Color	Black
Sizes Available	--
Packaging	Boxed
Packed	10/Case
Case Dimensions (cm)	57.00 x 54.00 x 33.00
Case Weight (kg)	13.10
Country of Origin	China
Material	Microfiber / PU
Outsole	--
Toe Type	Composite
Tread Pattern	--
Height	--
Construction	Slip Resistant
Certifications	ASTM F2413-18

PUMA® Safety

Stepper 2.0 Womens Blk/Prpl MID Composite Toe Impact Resistant Toe Cap, Electrical Hazard protection, Slip Resistant Safety Shoes

- **RUBBER OUTSOLE MOTION** - The 572°F heat resistant HRO rubber sole is inspired by the latest running technology. The anti-slip sole profile with its diagonal grooves ensures perfect flexibility and secure contact to the ground (SRC).
- **IMPULSE.FOAM®MIDSOLE** - The intelligent midsole made of IMPULSE.FOAM® reacts to every step with an energy impulse. As a result, the IMPULSE.FOAM® not only returns up to 55% of the energy, but also ensures maximum cushioning, excellent stability and long-lasting comfort.
- **TORSION CONTROL ELEMENT** - The TPU torsion control element in the middle of the sole supports the natural flexing action of the foot while walking and provides a better support and stability for the feet.
- **EVERCUSHION® BA+** - Maximum performance for your work shoes. The contoured evercushion® BA+ footbed follows the shape of the foot and ensures a natural position, pressure relief and muscle stimulation. It is made of two layers of breathable foamed polyurethane in different densities with extra cushioning material in the critical heel and ball area for superior shock absorption. An odor-resistant, sweat-wicking and non-slippery fabric covers the whole footbed. Excellent comfort and support to get your job done.

Performance Data

ASTM F2413 Requirement	--Compression Resistance-- Electrical Hazard Resistance-- Impact Resistance--
