Care Instructions

Hand Wash

Albatros®

Taraval Black/Blue MID S3L ESD FO SR
Composite Toe Electrostatic Dissipative Shoes,
Fuel Oil resistant, Slip Resistant, Safety Shoes

- **FLEXLITE OUTSOLE** - The noticeably light and ergonomic sole architecture with differently sized lugs and curved grooves ensures optimum liquid displacement and supports a natural rolling movement. Wear-resistant TPU inserts in the areas subject to the greatest strain and reinforced arch support ensure a secure grip, especially on industrial floors. The distinctive heel enables outstanding grip on ladders.
- **EFFECT.FOAM® MIDSOLE** - Tireless comfortable! • 60% energy return • 47% less impact on bones and joints* • extremely powerful and light • permanently high level of comfort for fatigue-free work * Dynamic energy absorption reduces the impacts to 1.6KN, the average for safety shoes is 3.0KN.
- **HEEL & ARCH SUPPORT** - The three-dimensional element formed directly from the EFFECT.FOAM midsole surrounds the heel and supports the midfoot. This ensures maximum hold, protects against ankle twists while also enabling a natural rolling movement of the foot.
- **EVERCUSHION® RELIEFT FOOTBED** - Maximum performance for your work shoes. The evercushion® RELIEF footbed consists of two different layers that fit together precisely. The upper layer is made from memory foam and adapts perfectly to the shape of the foot, offering cushioning just where it's most needed. The bottom layer is made of evercushion® foam and provides optimum pressure relief and durable cushioning. A specially adapted arch support keeps the foot in a natural position inside the shoe and stimulates the muscles while walking. The wavy grooves on the bottom stop the footbed from sliding inside the shoe. This is the comfort and support you need to get your job done.
