ASTM F2413 Requirement --

Care Instructions

Hand Wash

PUMA® Safety

Celerity Knit Pink LOW S1 HRO SRC Steel Toe Heat Resistant, Slip Resistant, Safety Boots

- **RUBBER OUTSOLE** - This 572°F heat, oil and slip resistant rubber sole, with TPU protection in the heel area, is inspired by the latest running technology. The sole profile with its diagonal grooves ensures a perfect flexibility and a secure contact to the ground (SRC). (ASTM F 1677 Mark II)
- **TORSION CONTROL ELEMENT** - The TPU torsion control element in the middle of the sole supports the natural flexing action of the foot while walking and provides a better support and stability for the feet.
- **EVA MIDSOLE** - Thousands of tiny bubbles in this ultra lightweight midsole ensure an optimal cushioning and improve the flexing action of the foot.
- **IQ.CELL** - The gel pad directly embedded in the heel area works just like a trampoline – it absorbs shock energy and returns it immediately as bounce.
- **SAFETY KNIT®** - STEP IN COMFORT - The highly flexible fabric adapts perfectly to the foot and fits like a sock. The SAFETY KNIT® upper, a mixture of high quality synthetic fibres, offers high flexibility, resistance and breathability.
- **EVERCUSHION® MISS** - This anatomically designed lightweight footbed with waffle structure will keep your feet cool and dry by transmitting moisture away from the foot. The open cells allow a rapid drying when the shoes have been taken off.
