

SPECIFICATION SHEET

STYLE: 648520

Technical Data

Color	Petrol Blue
Sizes Available	40-47
Packaging	Boxed
Packed	
Case Dimensions (cm)	
Case Weight (kg)	0.00
Country of Origin	China
Material	Textile
Outsole	
Тое Туре	Composite
Tread Pattern	
Footwear Height	Low
Construction	ESD Safe, Fuel Resistant, Heat Resistance, Slip Resistant
Certifications	

Albatros®

Antelao QI LOW S3 ESD HRO SRC Composite Toe Electrostatic Dissipative Shoes, Heat Resistant, Slip Resistant, Safety Boots

- SLIP RESISTANT XTS OUTSOLE The off-road profile of the up to 300°C heat-resistant, non-slip rubber outsole (HRO, SRC) ensures optimal ground contact, especially on unpaved surfaces. The wide studs clean themselves while running (mud release) and ensure maximum flexibility.
- JOINT STABILISATION The carbon-look joint stabilization runs around the heel, which additionally protects against ankle twisting and supports the position of the foot in the shoe
- QUICK LOCK Press, turn and the shoe sits perfectly on the foot permanently. The precisely adjustable twist lock of the QUICK LOCK
 lacing system is as simple as it is ingenious. If you pull on the
 fastener, the laces come loose. Another advantage operable with
 gloves.
- FAP FLEXIBLE ANTI-PENETRATION FAP® is a non-metallic material, especially for safety footwear, made of multiple textile layers of extremely tearproof fibers. The FAP® midsole offers greater comfort, flexibility, cold insulation, humidity absorption and shock absorption to the wearer.
- evercushion® CUSTOM FIT MID The anatomically shaped evercushion® CUSTOM FIT MID footbed provides optimal cushioning with every step. The specially fitted arch support enables the natural positioning of the foot in the shoe and stimulates the muscles when walking. Also available in the retail pack in the Versions LOW and HIGH, for narrow ones or wide feet.
