Albatros®

Acadia Grey Wns LOW O1 HRO SRC Heat Resistant, Slip Resistant, shoes

- XTS TRAIL - The easy-to-clean rubber outsole ensures perfect contact with the ground. It is non-slip and abrasion-proof and heat-resistant up to 300°C (HRO). The specially designed cleat profile and the wide flex grooves guarantee optimal flexion, optimize the water-displacing properties (windshield wiper effect) and provide a secure hold on a wide variety of surfaces.
- IMPULSE.FOAM® - The new innovative IMPULSE.FOAM® midsole reacts to each of your steps with an energy impulse. IMPULSE.FOAM® offers everything: Maximum cushioning with optimum energy return as well as excellent stability and longlasting comfort.
- COMFIT® AIR - The extra comfort in your footwear. The newly developed, breathable ALBATROS comfit® AIR footbed has elevations in the heel and ball area of the foot as well as a support of the longitudinal arch. This helps the foot keeping its natural position in the shoe and stimulates the musculature while walking. The slip-resistant textile cover is odor-resistant, moisture absorbing and washable at 30°C

Care Instructions

Hand Wash
