Albatros®

TRAILMASTER BLK QL MID S3S ESD FO HRO
SR Composite Toe Electrostatic Dissipative
Shoes, Heat Resistant, Slip Resistant, Safety
Shoes

- **NON-SLIP XTS TRAIL OUTSOLE** The easy-to-clean rubber outsole ensures perfect contact with the ground. It is non-slip and abrasion-resistant and heat-resistant up to 300°C (HRO). The specially designed lug profile and the wide flex notches guarantee optimum flexion, optimise the water-displacing properties (windscreen wiper effect) and provide a secure grip on a wide variety of surfaces.
- **IMPULSES. FOAM® MIDSOLE** Ultimate comfort on long working days. The innovative midsole made of IMPULSE. FOAM® in 2 different densities reacts to each of your steps with an energy pulse. The IMPULSE. FOAM® not only returns energy, but also ensures maximum cushioning and excellent stability.
- **COMFIT®AIR** The breathable ALBATROS® comfit® AIR footbed has shock-absorbing elevations in the heel and ball area as well as longitudinal arch support. This supports the natural posture of the foot in the shoe and stimulates the muscles when walking.
- **FAP® - FLEXIBLE ANTI PENETRATION** A flexible penetration protection made of ceramic-coated fibres protects the feet from penetrating objects over the entire surface.
